ABOUT US.....

The Bharat Ram Global School, an initiative of Shri Ram Education Trust is built on a sound and common understanding of what a high quality school of the future should be like. A child is inherently a learner with a natural inclination to explore, discover and share that new-found knowledge with family and associates. In today's age, for a child to grow up into a responsible and responsive citizen, indeed a sensitive global citizen, a whole new mindset is vital in imparting learning in school which addresses a child's multifarious developmental needs. It is with this motivation that Sir Shri Ram took initiatives in the field of education and set up some of India's renowned educational institutions.
